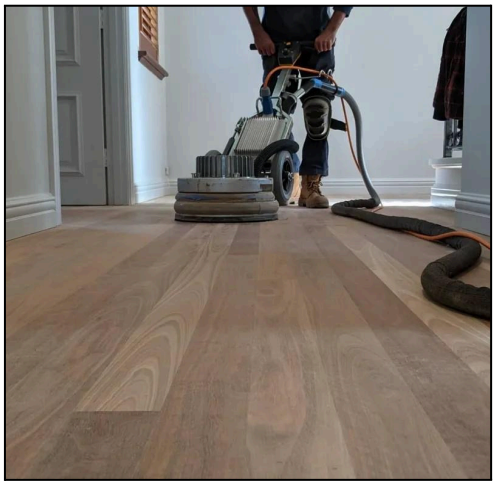
WEST DECK
TIMBER RESTORATION

Professional Timber Floor Sanding and Restoration in Perth WA

Restore the Beauty of Your Timber Floors

At **West Deck Timber Restoration**, we offer expert **floor sanding and timber restoration services** across Perth and Western Australia. Over time, timber floors can lose their shine, become scratched, or fade due to daily wear and tear. Our professional team brings your floors back to life with advanced sanding equipment, high-quality finishes, and a personal touch that ensures exceptional results every time.

We specialise in sanding, polishing, and refinishing all types of timber floors, from traditional hardwoods to modern engineered surfaces. Using dust-free technology and premium materials, we make sure your home or business space is left spotless, smooth, and beautiful. Our goal is simple — to help you enjoy the warmth and elegance of perfectly restored timber floors.



Why Choose Our Floor Sanding Service

Our floor sanding process removes old coatings, stains, and damage, revealing fresh, natural timber beneath. This not only enhances the appearance of your floors but also protects and strengthens them for years to come. We take pride in offering tailored solutions to suit your needs, budget, and style preferences.

Every project starts with a detailed floor assessment. We check for imperfections, gaps, and uneven boards before beginning the sanding process. Our experienced technicians use advanced machines to achieve an even, dust-free finish. After sanding, we apply durable coatings or stains to protect the timber and bring out its rich, natural grain.

WEST DECK
TIMBER RESTORATION

Whether you need a full restoration, light sanding, or maintenance polishing, our skilled team ensures outstanding workmanship and long-lasting beauty.

Our Step-by-Step Process

1. **Inspection and Preparation:** We inspect your floors, fix loose nails, and prepare the surface.

2. **Sanding:** We use high-performance, dust-free sanding machines for a smooth and even result.

3. **Finishing:** We apply quality finishes or stains that highlight the wood's character.

4. **Polishing:** A final polish enhances shine and provides lasting protection.

5. **Clean-Up:** We leave your home spotless, ready to enjoy your new floors.

Why Perth Trusts West Deck Timber Restoration

With years of experience in floor sanding and timber restoration, West Deck Timber Restoration has built a strong reputation across Perth for reliability, quality workmanship, and exceptional customer care. We understand the local climate and how it affects timber floors, allowing us to provide customised floor sanding solutions that deliver long-lasting results. Our consistent 5-star reviews reflect our commitment to excellence, precision, and friendly service.

We believe in honest pricing, clear communication, and professional craftsmanship. Whether you're updating your home, refinishing worn timber, or preparing a property for sale, our expert floor sanding team in Perth will restore your floors to a stunning, like-new finish.
